2016 Featured Farmers Showcase Rich Hoosier Heritage

INDIANAPOLIS (June 14, 2016)—This year marks 200 years of Hoosier history, and the Featured Farmers presented by Dow AgroSciences honored at the 2016 Indiana State Fair have contributed to that heritage since the very beginning. As was done last year, each day of the 17-day Indiana State Fair will highlight a different farm family from across the state. This year, each Featured Farmer has also received the Indiana State Department of Agriculture's (ISDA) Hoosier Homestead award, which celebrates farms that have remained in one family for 100, 150, or 200 years.

"Fair-goers made it clear last year that talking with farmers was a great part of their fair experience, and we are honored to once again provide this conversation opportunity," said Susanne Wasson, U.S. Crop Protection Leader, Dow AgroSciences. "This group of 17 farmers represents wonderful history of Indiana agriculture, while also showing the future is bright for farm families."

The Eliason Homestead will usher in our opening day of the 2016 Indiana State Fair as the only farm in the Featured Farmers to have received the Hoosier Homestead bicentennial award. The Eliason farm began in 1814, making it two years older than the state of Indiana.

"History and heritage will be a huge focus at this year's fair, and we are honored to work with Dow AgroSciences to welcome back our Featured Farmers to join in the celebrations," said Cindy Hoye, Executive Director, Indiana State Fairgrounds & Event Center.
